1. The Terminal Disclaimer filed on December 16, 2005 and the amendment submitted by Applicants on January 10, 2006 have been received and entered.
2. The proposed drawing filed on January 10, 2006 has been received and entered.
3. The Information Disclosure Statement submitted by Applicant on September 18, 2005 has been received and fully considered.
4. Claims 1-30 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The closest prior art to the present invention is Arakawa (U.S. Patent No. 5,396,459). Arakawa disclosed a nonvolatile memory device having an erasing operation by injecting hot electrons into the floating gate from the drain or from the substrate. Arakawa failed to show or suggest a nonvolatile memory having a trapping layer being operable to retain electrons in an erase state for at least one bit in the nonvolatile memory, causing the nonvolatile memory to have a read current in a reading operation, and a comparator receiving a first input resulting from the read current and a second input in a form of one of reference voltage and a reference current as in claims 1-10. Arakawa also failed to show or suggest the combination of a nonconducting trapping layer and a first bit and a second bit in the nonvolatile memory as in claims 11-15. Arakawa failed to show or suggest the steps of erasing the at least one bit by retaining electrons in a trapping layer, and programming the at least one bit by injecting electric holes as in claims 16-30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
